# Brett Jesse Greene

Research Administrator, Center for Drug Discovery  
Boston, Massachusetts

## Experience

Center For Drug Discovery, Northeastern University  
Research Administrator  
June 2008 - Present  
Boston, MA

I work in research administration under Alexandros Makriyannis, one of the world's top cannabinoid researchers. My job consists of a multitude of functions, ranging from administrative support for a team of 15+ grant submitting scientists to lab equipment and lab management, and diverse recruitment for NIH grants.

### CPDA Conference

Manager  
June 2015 - Present  
Northeastern University

The Chemistry and Pharmacology of Drug Abuse (CPDA) Conference is an annual conference that takes place on the Northeastern University campus. The Conference brings together top medicinal chemists and pharmacologists to discuss the latest in drug abuse research, and how this research applies to the design and testing of future pharmacotherapies that treat drug addiction. The topics emphasize laboratory findings in medicinal chemistry that inform the pharmacology and pathological mechanisms underlying addiction and the search for SUD pharmacotherapies. Attracting researchers, healthcare providers and public-health officials to the Boston area, the premiere biotechnology hub and home to leading biomedical research-intensive clinical centers (e.g., McLean Hospital/Harvard Medical School) in SUD research and treatment, the CPDA Conference strives to cultivate a place of learning and discussion in order to continue to combat the issue of SUD in this country and internationally.

Cannabis Chemistry Subdivision at ACS  
Organizer and Development Committee Member  
January 2018 - Present

Orion Partners

Strategic Advisor  
January 2017 - Present  
Greater Boston Area

Co-creator of the "Gro-IQ" platform; consults on data collection of key metrics related to cannabis cultivation, manufacturing and retail.

Massachusetts Recreational Consumer Council  
Advisory Board Member  
May 2017 - Present  
Greater Boston Area

Psymposia  
Co-Founder, Partner  
January 2014 - Present  
Massachusetts

Psymposia is an events group and digital magazine, that focuses on how the big emerging social issues of psychedelic science, drug reform, & harm reduction affect society, law, & medicine. We think up collaborative projects that have positive social impact, network community, and change perceptions of plants, psychedelics, and psychoactives. We've organized networking events, conferences, parties, fundraisers, and live streaming at lofts, universities, and venues across the country and Europe. We are based on the East Coast, USA.

Therapeutic Innovations, Inc.  
Director of Strategy  
April 2017 - July 2018 (1 year 4 months)  
Greater Boston Area

Co-wrote a successful NSF iCorps grant application; organized all business deliverables to secure the grant; aided in strategy around preparing a medical device for a 510 K application
